ILLINOIS 1840 CENSUS INDEX

Volume I

Counties Adams - DuPage

Compiled By

Maxine E. Wormer

Copyright 1973

PREFACE

This first volume of the index to the 1840 federal census for the State of Illinois was taken from National Archives microfilm rolls M704-54 through M704-57 and part of -58.

Every effort was made to copy the names as accurately as possible but the spelling and penmanship of the various county enumerators ranged from very good to very bad. As a result, there are, no doubt, some names in this index that are incorrect. It would have been unwise to have attempted to correct the spelling as such an attempt might have compounded the error. It would have been equally unwise to have speculated on the intentions of the enumerators. In some instances a name could have been interpreted several different ways. Therefore, anyone using this index is urged to check for all possible spellings of a name and to go by sound as well as spelling since many names were probably written as they sounded to the enumerator.

Several forms of "Senior" and "Junior" were used and it was sometimes difficult to differentiate between them. In this index all are shown as "Sr." or "Jr."

The format of this index includes the head of the household followed by the county of residence and the census page number where the name was found. In Cook County there was an unnumbered page between Pages 226 and 227. In this index the unnumbered page has been designated 226a.

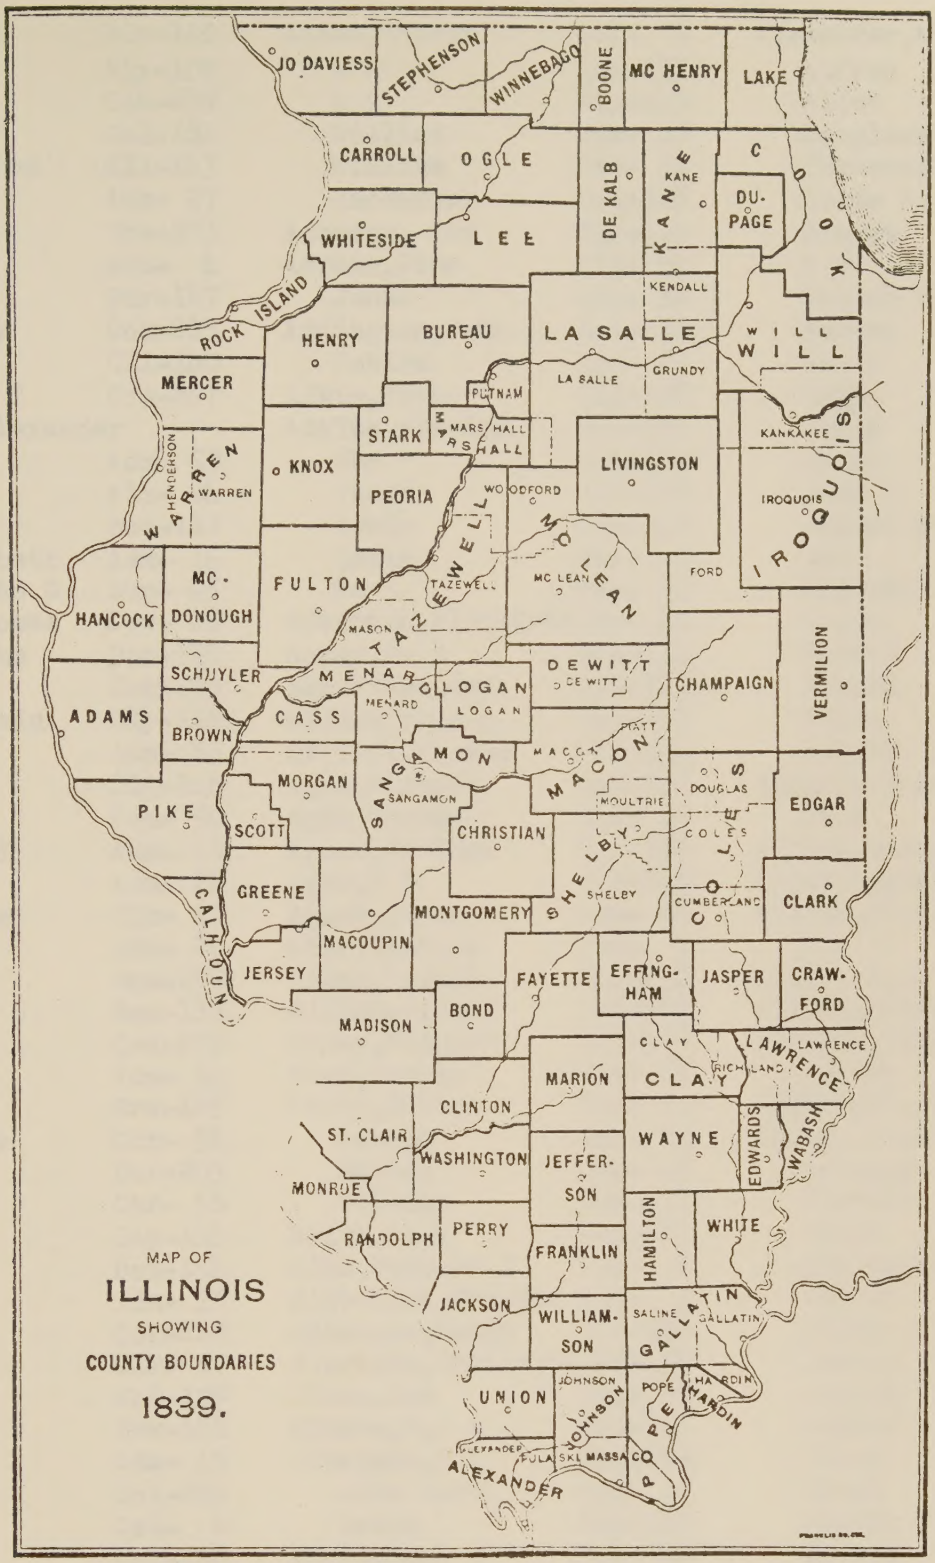
County abbreviations used in this volume are:

Adm - Adams	Chr - Christian
Alx - Alexander	Clk - Clark
Bon - Bond	Cly - Clay
Boo - Boone	Cli - Clinton
Brw - Brown	Col - Coles
Bur - Bureau	Cok - Cook
Cal - Calhoun	Cra - Crawford
Car - Carroll	Dek - DeKalb
Cas - Cass	Dew - DeWitt
Cha - Champaign	Dup - DuPage

Alphabetically, the counties of Cumberland and Douglas would fall within the above group of counties, however, they were not formed until 1843 and 1859, respectively. Anyone searching for persons who may have lived in the areas comprising the present-day counties of Cumberland and Douglas should check the parent county of Coles.

Information for each household not included in this index but available on the microfilm includes:

1) Age statistics for household members - white.
2) Age statistics for free colored persons and slaves.
3) Number of persons in each household employed in mining, agriculture, commerce, manufacturing and trades, navigation of oceans, canals, lakes and rivers, learned professions and engineers.
4) Pensioners for Revolutionary or military services and their ages.
5) Age statistics for deaf, dumb, blind or insane white persons and whether public or private charges.
6) Age statistics for deaf, dumb, blind or insane colored persons and whether public or private charges.
7) Information on persons attending school.



No counties were formed during 1840. The above map is from Counties of Illinois, Their Origin and Evolution, Secretary of State's Office, Springfield, Illinois.
